

How to Sell Quizzes and Courses Through Stripe

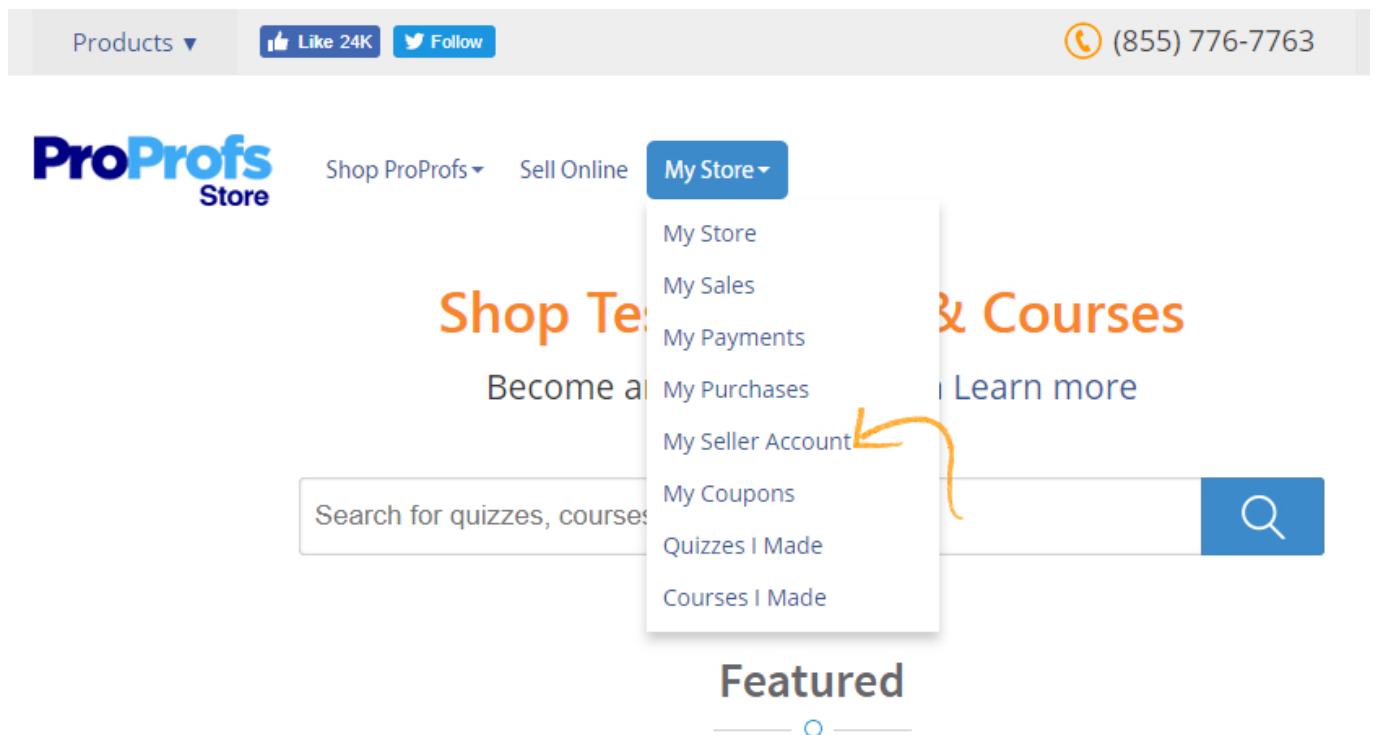

You can get paid directly by your buyers by leveraging ProProfs and [Stripe](#) integration. Stripe is a merchant payment processor and payment gateway that allows both individuals and businesses to accept payments over the internet.

Using this integration, deposits and refunds can be directly managed by you. While using Stripe, ProProfs does not charge any processing fee. Stripe levies a 2.9% + 30¢ charge. Based on your stripe account, you are paid instantly as and when a sale happens.
